<b>Topic 3 – Policies for Housing</b>
If no preferred sites for development are identified, it makes the whole parish area vulnerable to housing sites being identified via the Bromsgrove District Council Green Belt Review, which is currently underway. The failure of the Neighbourhood Plan to have some criteria for identifying preferred sites for potential housing development, reduces the influence of the Neighbourhood Plan on future site allocation via the Green Belt Review.

It is noted ; (8.10) 'The consultation on Issues and Options demonstrated very little local support for identifying any site allocations for small infill development and therefore the NDP will not seek to allocate any housing sites'.

Also noted (8.16); 'There was no demand for the NDP to identify site allocations for small scale new housing development'.

The Government recently announced plans to phase out the manufacture of petrol/diesel engine motor vehicles in the UK by 2040 and is encouraging the manufacture of electric vehicles. I have not seen any reference of the need for new homes to have electric charging points included in their design!
