Introduction

When to use this form

This form is for registration of a T7 (Treatment of waste bricks, tiles and concrete by crushing, grinding or reducing in size) waste exemption only. If you wish to register a T3 exemption (Treatment of waste metals and metal alloys by heating for the purposes of removing grease etc.) you should contact us for the appropriate form. All other waste exemptions must be registered with the Environment Agency.

Where a Mobile Crusher already permitted under the Environmental Permitting Regulations is used it will not normally be necessary to register a separate waste exemption.
