Appendix 1: How the IFS meets the requirements of the Regulations

## Introduction

Local Planning Authorities (LPAs) are now required to produce an annual Infrastructure Funding Statement (IFS) in conformity with The Community Infrastructure Levy (Amendment) (England) (No.2) Regulations 2019 (No.1103)<sup>1</sup>, which came into force on 1 September 2019 (the Regs).

Part 10A (Reporting and monitoring on CIL and planning obligations) of the Regs sets out details about planning obligation receipts and anticipated expenditure. This is to provide clarity and transparency to local communities and developers on the infrastructure and expenditure in relation to planned development.

Bromsgrove District Council is not a CIL charging authority, therefore this report provides a summary of financial contributions the Council has secured through S106 agreements from new developments for off-site infrastructure works and affordable housing.

Schedule 2 of the Regs refers to the reporting of details relating to any funding or provision of infrastructure which is to be provided through a highway agreement under Section 278 (S278) of the Highways Act 1980, which was entered into during the reported year. Bromsgrove District Council is not a Local Highway Authority, therefore all S278 agreements for Bromsgrove District should be reported by Worcestershire County Council (WCC) as the appropriate Local Highway Authority.

The information included in the report will be updated annually and published on the Council's website. This will ensure the most up to date information on the amount of developer contributions received from new developments in addition to information on where these monies have been spent is readily available to members of the public and other interested parties.

This IFS covers the monitoring year 2022/23 (1st April 2022 to 31st March 2023).

## Section 106 Obligations

Section 106 of the Town and Country Planning Act 1990 allows Local Planning Authorities (LPAs) to seek both physical on-site obligations and off-site financial contributions, when it is considered that a development will have negative impacts that cannot be dealt with through conditions in the planning permission. This includes the payment of monies towards infrastructure or securing affordable housing. Collectively, these are known as planning obligations and may take the form of a Section 106 (S106) agreement between a developer/landowner, the Council and possibly other parties, or alternatively, a unilateral undertaking providing a legal commitment by the developer alone.

Obligations form part of a planning permission, but are only used when planning conditions are unsuitable, because of their complexity and the delay they can add to the planning process. Since 2010 it has been a legal requirement that that planning obligations may only constitute a reason for granting planning permission for the development if the obligation is:

- (a) necessary to make the development acceptable in planning terms;
- (b) directly related to the development; and
- (c) fairly and reasonably related in scale and kind to the development.

The Council generally negotiates S106 contributions for the following:

- Open Space, Play Areas and Sports Facilities
- Affordable Housing
- Waste & Recycling
- Healthcare
- Education
- Highways & Transport
- Community Facilities
- Financial Contributions Monitoring Fee

Affordable housing contributions are generally provided on-site unless it is not practical do so, whereby an off-site financial contribution will be sought. Off-site financial contributions are reported in this IFS, however on-site affordable housing provision will be reported in the annual Housing Land Availability document, which can be found on the Council's website at:

<https://www.bromsgrove.gov.uk/council/policy-and-strategy/planning-policies-and-other-planning-information/monitoring-documents.aspx>

S106 contributions for Education or Highways & Transport infrastructure are included in S106 agreements drawn up as part of the planning process, however these funds are paid directly to Worcestershire County Council, as Education and Highway Authority and do not form part of this document.

The Regs now allow LPAs to charge a Monitoring Fee through S106 obligations, to cover the cost of the monitoring and reporting on delivery of that S106 obligation as described above. Monitoring Fees can be used to monitor and report on any type of planning obligation, for the lifetime of that obligation. However, Monitoring Fees should not be sought retrospectively for historic agreements.

The Council approved the introduction of a Legal Obligation Monitoring Fee at a meeting of Full Council on 25 September 2019. The schedule below was subsequently ratified by Full Council on 22 January 2020.
