Appendix 4 - Delivery schedule	Page 32

1. Introduction

1.1 The purpose of this document is to present data on the housing land supply in Bromsgrove District, which contributes towards meeting the District's housing requirement. The housing requirement for Bromsgrove District is for the construction and completion of 7000¹ dwellings between 1 April 2011 and 31 March 2030.

1.2 The information in this document shows the housing land supply position for Bromsgrove District at 1 April 2020. This information is used to monitor the progress of meeting the housing requirement set out in the Bromsgrove District Plan 2011-2030 (BDP), which was adopted in January 2017. Furthermore, this information will populate the Council's Authority Monitoring Report, which is published annually in December. It will also help the review of Local Plan policies, and provide background information for other strategic planning documents.

1.3 Paragraph 67 of the National Planning Policy Framework² (NPPF) highlights that local planning authorities should have a clear understanding of the land available in their area. Paragraph 73 of the NPPF states that '*...local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their local housing need requirement...*' and paragraph 75 states that '*...local planning authorities should monitor progress in building out sites which have permission...*'.

1.4 The role of housing land monitoring is to:

- Ensure the maintenance of an adequate supply of both brownfield and greenfield land for housing and to enable its managed release;
- Assess the supply of affordable housing units;
- Track the effectiveness of Local Plan policies; and
- Contribute to the District's Authority Monitoring Report and Ministry of Housing, Communities and Local Government housing flow returns.

1.5 The Housing Land Supply document was re-designed last monitoring year (2018-19) to provide a more streamlined and useful document. As such, some datasets won't have historic trend data.

1. As detailed in Policy BDP3 of the adopted Bromsgrove District Plan 2011-2030

2. The revised National Planning Policy Framework was updated on 19 February 2019

2. Housing Completions

2.1 This section details the completions to date which contribute to meeting the District’s housing requirement of 7000 dwellings up to 31 March 2030. For the Plan period (2011-2030) an average of 368 net completions per annum is required to meet the District’s housing requirement. Table 1 shows the housing delivery performance to date. For details of the sites which made contributions to the 2019/20 completions, see Appendices 1 and 2.

Table 1: Housing delivery performance against BDP requirement 2011-2030

Year	11/12	12/13	13/14	14/15	15/16	16/17	17/18	18/19	19/20	Total
Proportionate target	368	368	368	368	368	368	368	368	368	3312
Net Completions	256	130	176	228	483	353	513	202	294	2635
									Shortfall to date	677

2.2 There is currently a shortfall of **677 dwellings** against the BDP requirement.

2.3 Bromsgrove monitors the type and tenure of completions within the District every year from 1 April to 31 March in line with Policy BDP7 and BDP8. Policy BDP8 states that *“where there is a net increase of 11 or more dwellings affordable housing provision will be expected on-site and will be calculated against the net number of new dwellings as follows:*

- *Up to 40% affordable housing (or a higher % if proposed) on greenfield sites or any site accommodating 200 or more dwellings;*
- *Up to 30% affordable housing (or a higher % if proposed) on brownfield sites accommodating less than 200 dwellings”*

2.4 The way Bromsgrove monitors its housing completions changed last monitoring year (2018/19), and as such there is no available data of housing tenures prior to last monitoring year. Table 2 provides details of completed dwellings within the District from the 2018/19 monitoring year to this monitoring year by tenure for the whole District.

Table 2: Completions in 2018/19 and 2019/20 by tenure

Year	Private (net)	Affordable (net)	Total (net)	Affordable Housing percentage
2018/19	166	36	202	17.82%
2019/20	210	84	294	28.57%

Table 3: Gross number of bedrooms for completed dwellings from 1 April 2011 to 31 March 2020

Year	1 bed	2 bed	3 bed	4 bed	5+ bed	Total
2011/12	28	110	80	43 ³	-	261
2012/13	40	28	33	46 ³	-	147
2013/14	19	59	43	68 ³	-	189
2014/15	35	30	26	51 ³	-	142
2015/16	116	135	85	148 ³	-	484
2016/17	18	51	44	39 ³	-	152
2017/18	56	55	38	75 ³	-	224
2018/19	27	67	33	69	19	215
2019/20	52	86	72	89	11	310

(N.B. For every year prior to 2018/19, the completed number of bedrooms do not include those dwellings on sites still under construction. Hence the total number of dwellings do not match the completions figure in Table 1).

Brownfield/Greenfield

2.5 A core planning principle highlighted in the NPPF is to encourage the effective use of land by reusing land that has been previously developed (brownfield land), provided that it is not of high environmental value.

2.6 Paragraph 117 of the NPPF explains *'Planning policies and decisions should promote an effective use of land in meeting the need for homes and other uses, while safeguarding and improving the environment and ensuring safe and healthy living conditions. Strategic policies should set out a clear strategy for accommodating objectively assessed needs, in a way that makes as much use as possible of previously-developed or 'brownfield' land.'*

2.7 The NPPF also states at paragraph 70 that planning authorities should consider the case for setting out policies to resist inappropriate development of residential gardens, for example where development would cause harm to the local area. The glossary of the NPPF also excludes land in built-up areas such as residential gardens as being part of the definition of 'previously developed land'. As such garden land is classified as greenfield land.

2.8 Table 4 provides details of the total number of dwellings completed on brownfield and greenfield land for the period 1 April 2011 to 31 March 2020.

3. Includes 4+ bedrooms

Table 4: Total number of dwellings (Gross) completed on Brownfield and Greenfield land in monitoring years 2011/12 to 2019/20

Year	Brownfield	Greenfield	Total	Percentage Brownfield
2011/12	98	163	261	37.55%
2012/13	70	77	147	47.62%
2013/14	75	114	189	39.68%
2014/15	74	162	236	31.36%
2015/16	158	348	506	31.23%
2016/17	108	261	369	29.27%
2017/18	80	445	525	15.24%
2018/19	57	158	215	26.51%
2019/20	181	129	310	58.39%
Total	901	1857	2758	32.67%

2.9 Historically Bromsgrove has achieved high figures of housing built on brownfield land, but the 2017/18 and 2018/19 monitoring years resulted in a dramatic decline of brownfield completions. This year, many completions occurred on a large strategic brownfield site, hence the increase in percentage of brownfield completions. The Local Plan identifies further strategic development sites, some of which are yet to obtain planning permission, which are greenfield land, which means that in future years a smaller percentage of brownfield completions is to be expected.

3. Provision of Affordable Housing

3.1 The provision of sufficient and high quality affordable housing is one of the most discussed and relevant issues within Britain today, especially given the present housing market conditions, which are precluding many people from accessing housing.

3.2 Therefore, robust monitoring of the provision of affordable housing provides local authorities with an assessment of whether or not sufficient levels of affordable housing are being provided as a response to meeting their current housing needs. Policy BDP8 in the BDP relates to affordable housing requirements within the District.

3.3 The total affordable housing completions in 2019/20 was 84 dwellings. This is higher than last year's figure, reflecting the rise in net completions across all the district. There are a further 38 affordable housing commitments as of 1 April 2020.

3.4 For the breakdown of affordable completions by tenure, please see Table 5. For the breakdown of bed spaces for affordable dwellings from 2013/14 to 2019/20 see Table 6. Data for 2011/12 and 2012/13 on the bed spaces for affordable dwellings is unavailable.

Table 5: Affordable Housing Completions (Net) 2011/12-2019/20 by tenure

Year	Affordable Rent	Intermediate Housing ⁴	Social Rented	Total Affordable
2011/12	-	55	102	157
2012/13	-	18	32	50
2013/14	-	11	41	52
2014/15	4	5	3	12
2015/16	136	0	30	166
2016/17	0	11	29	40
2017/18	12	25	25	62
2018/19	12	7	17	36
2019/20	3	25	56	84
Total	167	157	335	659

(N.B. For every year prior to 2018/19, the affordable housing completions by tenure do not include those affordable dwellings on sites still under construction).

Table 6: Affordable Housing Completions (Net) 2013/14 to 2019/20 by beds

	1 bed	2 bed	3 bed	4 bed	5+ bed	Total
2013/14	10	18	2	0	0	30
2014/15	7	0	5	0	0	12
2015/16	67	65	34	0	0	166
2016/17	11	17	8	0	0	36
2017/18	39	29	10	0	0	78
2018/19	12	13	7	4	0	36
2019/20	31	37	15	1	0	84
Total	177	179	81	5	0	442

4. Including Shared Ownership.

4. Distribution of Housing Supply

4.1 Table 7 provides details of completed sites (COMP) from 1 April 2011 to 31 March 2020, and sites which are Under Construction (UC) and Not Started (NS) at 31 March 2020 by Parish.

Table 7: Completions from 1 April 2011 to 31 March 2020 and sites UC and NS at 31 March 2020 by Parish/Area (Net)

Dwellings Completed									Net Comp	Net UC	Net NS
Parish/Area	04/11-03/12	04/12-03/13	04/13-03/14	04/14-03/15	04/15-03/16	04/16-03/17	04/17-03/18	04/18-03/19	Apr 19-Mar 20	Apr 19-Mar 20	Apr 19-Mar 20

Cofton Hackett	1	0.21%	Wythall	60	12.66%
Dodford with Grafton	8	1.69%	Total (Net)	474	100%

Percentages are rounded and therefore may not add to 100%

Figure 1: Distribution of land with planning permission for housing by Parish (2019/20)

5. Housing Commitments

5.1 This section details the commitments for the District. There are currently **122 dwellings** under construction (See Appendix 2) and **352 dwellings which have not started** (See Appendices 2 and 3) which benefit from valid planning permission this monitoring year. This gives a total of **474 net housing commitments** in BDC.

5.2 Deliverable is defined in the NPPF (2019) Glossary as:

“Deliverable: To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In Particular:

- a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).*
- b) where a site has outline permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years.”*

5.3 As such, sites within Appendix 4 - Delivery Schedule, adhere to the NPPF and NPPG with regards to being deliverable sites. Evidence has been gathered for required sites to confirm that they should be included within the five year supply.

5.4 There are only two allocated Deliverable sites within the District, which do not have planning permission but can be evidenced as deliverable. Table 9 shows each site capacity and the projected delivery of dwellings within the next five years.

Table 9: Allocated Deliverable sites within BDC

Policy Reference	Site Name	Total site capacity	Deliverable dwellings within 5 years (2020/21 to 2024/25)
BDP5A BROM2	Perryfields Road	1300	640
BDP5A BROM3	Whitford Road	490	410
	Total	1790	1050

6. Housing Delivery Performance

6.1 The Housing Delivery Test (HDT), which was introduced in 2019, relates to the buffer element of the five year housing land supply calculations and replaces the Housing Delivery Performance justification for a 5% buffer. The size of the buffer to apply is set out in the NPPF (2019) at Paragraph 73 (a-c) and is reiterated in the Planning Practice Guidance. The purpose of including a buffer is to ensure choice and competition in the market for land. The minimum buffer that can be applied is 5%, which has been applied to Bromsgrove District by the Council. The Council is currently disputing the HDT outcome for Bromsgrove District in relation to how cross boundary housing need is taken into account and the impact this has had on the Bromsgrove HDT outcome.

7. Windfalls

7.1 The NPPF (2019) at Paragraph 70 states *'Where an allowance is to be made for windfall sites as part of anticipated supply, there should be compelling evidence that they will provide a reliable source of supply. Any allowance should be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends. Plans should consider the case for setting out policies to resist inappropriate development of residential gardens, for example where development would cause harm to the local area...'*

7.2 The Glossary (NPPF, Annex 2), defines windfall sites as *'sites not specifically identified in the development plan.'*

7.3 Windfall development is monitored as part of the Housing Land Supply process in Bromsgrove each year, and a detailed commentary and calculation method has previously been included in the 2015 SHLAA⁸ and in previous Housing Land Supply reports.

7.4 At the examination in the Bromsgrove District Plan 2011-2030, the Inspector considered the appropriateness of the Council's windfall allowance. He finds in his Inspector's Report (December 2016), at paragraph 43 that:

"Justification for the windfall allowance of 40 dwellings per annum, which has been increased from the figure of 30, is set out in the more up-to-date assessment of five year housing land supply, discussed below. This increase is based upon evidence of increased recent windfall rates that take account of dwellings delivered through permitted development rights - notably relating to agricultural buildings. Bearing in mind the rural nature of much of the District, a modest increase of 10 dwellings per annum in the windfall estimate appears realistic - and is well below the current rate of delivery."

7.5 And at paragraph 44 stated *"I am satisfied that the Council's revised assessment is robustly based."*

7.6 Therefore a **windfall allowance of 40 dwellings per annum** will be used in the 5 year housing land supply calculations. $40 \times 4^9 \text{ years} = 160 \text{ dwellings}$ - This number has been applied to the five years housing land supply.

7.7 Table 10 demonstrates windfall completions since 2002/03 and shows that the average number of windfalls in this period is 47 per annum; therefore there is confidence that this level of windfalls can be sustained.

8. BDC (2015) Strategic Housing Land Availability Assessment (September 2015). Pages 16 and 17

9. Only four years used to avoid double counting

Table 10: Windfall completions for the years 2002/03 to 2019/20

Year	Windfall excluding Prior Notifications	Prior Notifications	Windfall Total	Dwellings on garden land (not included in Windfall total)
2002/03	41	-	41	-
2003/04	99	-	99	-
2004/05	57	-	57	-
2005/06	39	-	39	-

2016/17	40	6	46	-
2017/18	61	8	69	25
2018/19	47	10	57	25
2019/20	59	0	59	4
Total			844	
Average over 18 years (rounded)			47	

10. Not the full monitoring year as Legislation allowing Prior Notification only introduced on 30 May 2013

8. Five Year Housing Land Supply at 1 April 2020 to 31 March 2025

8.1 The NPPF (para 73) states that local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide five years' worth of housing against their housing requirements with an additional buffer to ensure choice and competition in the market for land.

8.2 Using net housing figures, the assessment below demonstrates that there is not a five year supply of housing land in the District at 1 April 2020.

Table 11: Five year land supply at 1st April 2020

	Dwellings	Average per Annum
a BDC Housing Requirement 2011-2030 (net)	7,000	368 (rounded)
b Net Completions 1 April 2011 to 31 March 2020 (256+130+176+228+483+353+513+202+294)	2635	
c Undersupply to 31 March 2020 against BDP target (368 x 9) - b	677	
d Requirement for 5 years 1 April 2020 to 31 March 2025 (368 x 5) + c + 5% buffer ¹¹	2643	529
e Net Commitments at 1 April 2020 (352 Net Not Started + 122 Net Under Construction)	474	
f SHLAA Deliverable Sites (1 April 2020 to 31 March 2025)	1050	
g Windfall Allowance (40 x 4 years)	160	
h Total Supply less 5 Year Requirement (e + f + g) – d	-959	
i Number of Years Supply (e + f + g) / 529	3.18 years supply	

8.3 The 5 year housing land supply calculation indicates that at 1 April 2020, Bromsgrove District Council can demonstrate **3.18 years** of deliverable housing land supply for the period 1 April 2020 to 31 March 2025. This includes making good the shortfall accrued in the Bromsgrove District Plan period since 2011 and the application of a 5% buffer to ensure choice and competition in the market for land.

11. In accordance with NPPF (2019) Paragraph 73

Figure 2: Housing Trajectory
